Education

BACHELOR IN TECHNOLOGY

Walchand Institute of Technology
Solapur, Maharashtra

2025 - PRESENT (Final Year)
INFORMATION TECHNOLOGY
OVERALL CGPA - 8.87/10

DIPLOMA

DKTE's Yashwantrao Chavan
Polytechnic Ichalkaranji, Maharashtra

Passed : 2023

- Percentage -82.46%

HIGH SCHOOL (10th)

Shri Vidyasagar Highschool
Akiwat, Kolhapur, Maharashtra

Passed : 2020

- Percentage -81.80%

Experience

Software Developer Intern

Akron System – On-site | June 2025 – Present

Tech: Next.js, NestJS, TypeScript, Tailwind CSS, ShadCN, MongoDB

Collaborating on a multi-tenant College ERP system as part of a 5-member Agile team, contributing to full-stack development using Next.js, NestJS, and

MongoDB.:

- Built responsive UI pages using ShadCN and Tailwind CSS, delivering dynamic forms and full CRUD functionality for multi-role users.
- Optimized backend APIs, reducing response latency by 25%.
- Built and tested REST APIs with NestJS and MongoDB; supported backend logic implementation.
- Participated in debugging, Collaborated with 5-member team in Agile sprints, improving delivery time by 15%.
- Participated in sprint planning and code reviews to ensure high-quality delivery.

About Me

Passionate Information Technology student with hands-on full-stack development experience in React, Node.js, and MongoDB. Skilled in building responsive web applications and scalable RESTful APIs. Strong foundation in modern JavaScript frameworks with a focus on clean UI/UX and performance. Quick learner and team player eager to contribute to impactful software projects.

Projects

Diploma Aspirants App [Link ↗](#)

- (Android Studio | Firebase)
- Built a centralized Android app for diploma students to access shared study materials.
- Integrated Firebase for real-time data sync and user authentication.
- Improved study access and reduced resource duplication across users.

Parko - Online Parking System [Link ↗](#)

- (Next.js | Node.js | JavaScript | Leaflet | Vercel)
- Build a role-based online parking management system enabling users to find and book safe and relevant parking spaces.
- Implemented four user roles: Admin, User, and Entry/Exit Operator for controlled access and functionality.
- Integrated Leaflet maps for real-time parking location visualization and navigation.
- Deployed the full-stack application on Vercel for seamless accessibility and performance.
- Designed a time-based cost calculation system to automate parking fee estimation.
